Agreed. Looking forward to hearing more soon. In the meantime, I'll also review the report.

All the best,
Haley

I'd second Tom's comments and his interest in a briefing to get a sense of potential next steps/involvement from EPA on this. Local stakeholders in Springfield are very interested in the future of this site, as you know.

Best,
George

Thanks Rudy, will review.

Has this report been provided to Vermont stakeholders? If not, may we share it with them?

And yes, it will be very useful for us to stay briefed on the EPA's plans for involvement in clean-up of this site. Community leaders are in frequent contact with our offices and, as you know, eager to understand how the EPA will be able to assist with clean-up. I'm not sure that we need an in depth briefing on the technical aspects of the report (though those are of interest) as much as what the information tells us about EPA's future involvement.

Thanks much

Tom

Tom, Haley, George,

Attached is a report detailing the sampling efforts undertaken by the Removal Program.

The report does not address what cleanup work the Program is contemplating. Discussions are going on.

I can arrange a call with appropriate staff, if after review, you feel it would be useful. I will keep you up-date.
